The Tübingen Faculty of Medicine and University Hospital are part of the University of Excellence Tübingen. They provide medical services at the highest level and cover the entire spectrum of modern medicine, clinical care, research and teaching.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the University Hospital for Orthopedics as a

**Full Professor (W3) for Orthopedics**

The position is available from 01 April 2023 and will be filled on a salaried basis, unless the person to be appointed is already a civil servant.

The professorship is linked with the directorship of the Department for Orthopedics of the University Hospital Tübingen. Substantial experience in the management and business administration of a department/clinic as well as strong skills in personnel management are therefore expected. The successful candidate is expected to represent orthopedics and special orthopaedic surgery in patient care, research and teaching and to have both clinical and scientific expertise in focus areas such as musculoskeletal tumor surgery, treatment of spinal diseases, endoprosthetics, and arthroscopies.

The person sought has a nationally and internationally visible scientific profile, which is characterized by the successful acquisition of third-party funding, by publications in high-ranking journals and by links to the research priorities of the Medical Faculty. Active participation especially in the existing oncological cluster of excellence of the University (iFIT), in the Comprehensive Cancer Center (CCC) Tübingen-Stuttgart, in the National Center for Tumor Diseases (NCT) Tübingen as well as in medical technologies expected.

Onsite, a Center for Musculoskeletal Surgery is planned together with BG Klinik Tübingen. An active role in shaping the future direction of that multidisciplinary center is expected. Willingness and commitment to contribute to ongoing and planned research collaborations within and outside the Faculty of Medicine (e.g. Collaborative Research Centers, Research Units, German Centers for Health Research, Center for Personalized Medicine, Clusters of Excellence and Excellence Strategy) are required.

In the field of teaching, involvement and comprehensive experience evaluated as outstanding are expected, as well as active design of lectures and other teaching formats, particularly in view of innovative curricula in the degree programs taught at the Tübingen Faculty of Medicine. The position has a teaching load of nine hours per week (during semester).

Required qualifications include a license to practice medicine, a board certification for Orthopedics and Trauma Surgery acquired in Germany or an international certification recognized as equivalent by the Medical Council of Baden-Württemberg, additional qualification for special orthopedic surgery and postdoctoral qualifications equivalent to the requirements for tenure, including evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching and therefore strongly encourages women to apply. In line with its
internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

Before taking up an activity, the following requirements must be met in accordance with § 23a in conjunction with § 20 Abs. 9 Infektionsschutzgesetz (IfSG) a sufficient vaccination protection against measles or an immunity against measles must be proven (scope of application birth cohorts as of 01.01.1971) as well as a valid vaccination certificate against the coronavirus SARS-CoV-2 according to § 20b Abs. 2 IfSG must be available.

The German-language advertisement is the sole legally binding advertisement of this position. General information on professorships, hiring processes, and the German academic system can be found here: https://uni-tuebingen.de/en/213700

Please submit your entire application using the web-based application platform https://berufungsportal.medizin.uni-tuebingen.de. The deadline for applications is 08.09.2022.

Enquiries may be directed to the Dean.
