The Tübingen Faculty of Medicine and University Hospital are part of the University of Excellence Tübingen. They provide medical services at the highest level and cover the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the Institute of Immunology (to be established) as a

**Full Professor (W2) of Immunology with a Focus on Experimental T Cell Research (f/m/d)** available immediately.

The position is made available for a period of six years according to section 50 subsection 2 sentence 1 no. 5 of the Baden-Württemberg state law covering higher education and specifically the promotion of highly gifted junior researchers.

The successful candidate should have an international reputation in the field of T cell immunology research and conduct basic immunological research in at least one of the following areas: oncology, infectiology, inflammatory diseases, and neuroscience.

The research output should be well-documented through publications in relevant and internationally visible journals as well as the acquisition of competitive third-party funds. Moreover, active participation and engagement in interdisciplinary and translational research networks of the Faculty of Medicine is expected, in particular the Clusters of Excellence “Image-guided and Functionally Instructed Tumor Therapies” (iFIT) and “Controlling Microbes to Fight Infections” (CMFI), the M3 Research Institute (Malignoma, Metabolome and Microbiome), the Comprehensive Cancer Center (CCC) Tübingen-Stuttgart, the National Center for Tumor Diseases (NCT) as well as the German Consortium for Translational Cancer Research (DKTK).

In the field of teaching, comprehensive experience evaluated as outstanding and involvement are expected, as well as active design of lectures and other teaching formats, particularly in view of innovative curricula in the degree programs taught at the Tübingen Faculty of Medicine. The position has a teaching load of nine hours per week (during the semester).

Required qualifications include a PhD or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure. This includes evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching and therefore strongly encourages women to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

Please take note of the applicable vaccination regulations.
The German-language advertisement is the sole legally binding advertisement of this position. General information on professorships, hiring processes, and the German academic system can be found here: https://uni-tuebingen.de/en/213700

Please submit your entire application using the web-based application platform https://berufungsportal.medizin.uni-tuebingen.de. The deadline for applications is December 1, 2022.

Enquiries may be directed to the Dean.
