The Tübingen Faculty of Medicine and University Hospital are part of the University of Excellence Tübingen. They provide medical services at the highest level and cover the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the Institute of Tropical Medicine, Travel Medicine and Human Parasitology as a

**Full Professor (W2) of Clinical Parasitology and Global Health**

available immediately. The position will be filled on a salaried basis. The position is made available for a period of six years according to section 50 subsection 2 sentence 1 no. 5 of the Baden-Württemberg state law covering higher education and specifically the promotion of highly gifted junior researchers. The successful acquisition of a grant within the framework of the DAAD call for Global Health Centres is a prerequisite for an application. For the leadership role in clinical trials a medical school diploma is required.

The successful candidate should have extensive experience in leading clinical research on major parasitic human pathogens. She or he is expected to have a longstanding track record in establishing international collaborations in the area of clinical parasitology, the acquisition of competitive grants and directing an independent research group. A documented interest in interdisciplinary collaborations beyond biomedicine will also be considered as a strong asset. Very good language proficiency in English and excellent language proficiency in French are required. The candidate will be based in Gabon and other African countries for up to 50% of her or his research and teaching commitments.

The establishment and direction of the M.Sc. degree course “Infection Biology and Control” as well as the active commitment and participation in teaching the established courses at the Tübingen Faculty of Medicine are expected. The position has a teaching load of nine hours per week which will be reduced to six hours per week for the duration of the DAAD grant period.

Required qualifications include a doctorate in human medicine or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure. This includes evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching and therefore strongly encourages women to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

Please observe the applicable vaccination regulations.

The German-language advertisement is the sole legally binding advertisement of this position.

Please submit your entire application using the web-based application platform [https://berufungsportal.medizin.uni-tuebingen.de](https://berufungsportal.medizin.uni-tuebingen.de). The deadline for applications is
December 15, 2022.
