The Tübingen Faculty of Medicine and University Hospital are part of the University of Excellence Tübingen. They provide medical services at the highest level and cover the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the Department of Dermatology as a

**Full Professor (W3) of Dermatology**

The position is available from October 1, 2024 and will be filled on a salaried basis, unless the person to be appointed is already a civil servant.

The professorship is linked with the directorship of the Department of Dermatology. Substantial experience in the management and business administration of a department/clinic as well as strong skills in personnel management are therefore expected. The successful candidate is expected to represent dermatology in patient care, research and teaching and to have both clinical and scientific expertise in focus areas such as clinical oncology and immunology, auto immunological diseases and psoriasis, allergology, and infectious diseases of the skin.

The person sought has a nationally and internationally visible scientific profile, which is characterized by the successful acquisition of third-party funding, by publications in high-ranking journals and by links to the research priorities of the Faculty of Medicine. Active participation especially in the existing oncological and infectiological clusters of excellence of the University (iIFIT, Image-guided and Functionally Instructed Tumor Therapies and CMFI, Controlling Microbes to Fight Infections), in the Comprehensive Cancer Center (CCC) Tübingen-Stuttgart, in the National Center for Tumor Diseases (NCT) Tübingen as well as in INDIRA (Center for Interdisciplinary Rheumatology of the University Hospital Tübingen) is expected. The willingness and commitment to help shape other ongoing and planned research networks within and outside the Faculty of Medicine (e.g. collaborative research centers, research groups, German centers for health research, center for personalized medicine, clusters of excellence and strategy for excellence) are required.

In the field of teaching, comprehensive experience evaluated as outstanding and involvement are expected, as well as active design of lectures and other teaching formats, particularly in view of innovative curricula in the degree programs taught at the Tübingen Faculty of Medicine.

The position has a teaching load of nine hours per week during the semester.

Required qualifications include a license to practice medicine, a board certification for dermatology and venereology acquired in Germany or an international certification recognized as equivalent by the Medical Council of Baden-Württemberg and postdoctoral qualifications equivalent to the requirements for tenure, including evidence of teaching effectiveness.

The University of Tübingen is committed to equal opportunity, diversity and inclusion. Female scientists, in particular, are explicitly invited to apply, as are applicants from outside
Germany.

Applications from equally qualified candidates with disabilities will be given preference.

General information on professorships, hiring processes, and the German academic system can be found here: https://uni-tuebingen.de/en/213700

Please submit your entire application using the web-based application platform https://berufungsportal.medizin.uni-tuebingen.de. The deadline for applications is July 16, 2023.

Enquiries may be directed to the Dean.
