The Tübingen Faculty of Medicine and University Hospital are part of the University of Excellence Tübingen. They provide medical services at the highest level and cover the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the future Institute of Midwifery Science, Department of Midwifery Science 2 as a

**Full Professor (W3) of Midwifery Science**

available immediately. The successful candidate will be appointed as a civil servant with “Beamten” status provided she or he meets the criteria.

The professorship is expected to further develop research in the field of midwifery science in Tübingen, to consolidate midwifery science as an independent subject at the Faculty of Medicine and to strengthen research cooperations with the main research areas in Tübingen, in particular the German Centers for Health in Tübingen (e.g. diabetes and vascular medicine) and the cross-sectional areas of immunology, prevention and health care research as well as digital health. The fostering and establishing of international research cooperations is expected. In addition to midwifery science, a particular focus of the professorship will be on promoting women's health and research into physiological obstetrics. The position is furthermore linked to the management of the master's program in midwifery science and women's health, which builds consecutively on the bachelor's program in midwifery (course management by the professorship for Special Obstetrics focusing on Midwifery).

A scientific profile with high visibility is expected, characterized by the successful acquisition of third-party funding, publications in relevant journals and by links to central research themes of the Faculty of Medicine, in particular human physiology, endocrinology, neurophysiology and psychology.

In the area of teaching, extensive and excellently evaluated teaching experience and commitment as well as the willingness to actively help shape innovative teaching and examination formats are expected. The teaching obligation is 9 hours per week during the semester.

Prerequisites for employment are a completed university degree, a PhD and postdoctoral qualifications equivalent to the requirements for tenure. The professional license as a midwife or an international counterpart thereof which can be evaluated as equivalent to the German professional license by means of an official recognition process is desired.

Mandatory courses in the master's program are held in German. The willingness to acquire adequate knowledge of German is expected.

The University of Tübingen is committed to equal opportunity, diversity and inclusion. Female scientists, in particular, are explicitly invited to apply, as are applicants from outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.
General information on professorships, hiring processes, and the German academic system can be found here: https://uni-tuebingen.de/en/213700

Please submit your entire application using the web-based application platform https://berufungsportal.medizin.uni-tuebingen.de. The deadline for applications is 16 November 2023.

Enquiries may be directed to the Dean.
