

The University Medical Center Tübingen is part of the University of Excellence Tübingen. It provides medical services at the highest level and covers the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position as a

Full Professor (W3) of Translational Infectiology and Vaccine Development

available immediately. The professorship is limited until 31 December 2028. The professorship is located at the Institute of Tropical Medicine, Travel Medicine and Human Parasitology and is funded within the framework of the German Center for Infection Research (DZIF).

Candidates should be acknowledged experts in the field of translational research on global infectious diseases and have experience with self-initiated clinical trials in accordance with the German Medicines Act (Arzneimittelgesetz, AMG). Since the focus of the Institute of Tropical Medicine, Travel Medicine and Human Parasitology is on clinical research, especially malaria research, we are therefore interested in applicants with specialist competencies in this area. Experience with international and German-African collaboration projects on poverty-associated and neglected diseases is also required.

Applicants should have a proven track record of publication in high impact journals and research activity within international research teams. Due to the special international orientation of the professorship, language skills (German, English and French) are particularly important.

In the field of teaching, comprehensive experience evaluated as outstanding and involvement are expected, as well as active design of lectures and other teaching formats, particularly in view of innovative curricula in the degree programs taught at the Tübingen Faculty of Medicine. The position has a teaching load of two hours per week (during lecture periods).

Required qualifications include the license to practice medicine, a board certification in internal medicine, infectious disease or pediatrics and adolescent medicine as well as a PhD or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure. This includes evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching and therefore strongly encourages women candidates to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

The German-language advertisement is the sole legally binding advertisement of this position.

Please submit your entire application using the web-based application platform <https://berufungsportal.medizin.uni-tuebingen.de>. The deadline for applications is **1 April 2021**.

Enquiries may be directed to the Dean.
