The Tübingen Faculty of Medicine and University Hospital are part of the University of Excellence Tübingen. They provide medical services at the highest level and cover the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the Interfaculty Institute for Cell Biology (IFIZ), Department of Immunology as a

Professor (W3) of Peptide-based Immunotherapy

available immediately. The holder of this position will have a regular employment contract with no time limit.

The successful candidate should have an international reputation in the field of basic or translational research on peptide-based immunotherapy in tumor diseases and infectious diseases and demonstrate scientific excellence in research and teaching. The main focus of the professorship should be in the field of peptide vaccination and cell therapy with HLA ligand-specific T-Cell receptors. Due to the translational focus of the professorship, relevant experience with the approval procedures of the Federal Institute for Drugs and Medical Devices (BfArM) and the Paul Ehrlich Institute (PEI), as well as with the establishment and conduct of clinical trials and Investigator-Initiated Trials (IIT's) with self-developed substances is required.

Active participation in research initiatives of the Faculty of Medicine such as the Cluster of Excellence "Image-guided and Functionally Instructed Tumor Therapies" (iFIT)”, the M3 Research Institute (Malignoma, Metabolome and Microbiome), the Comprehensive Cancer Center (CCC) Tübingen-Stuttgart, the National Center for Tumor Diseases (NCT), the Center for Personalized Medicine (ZPM) as well as the German Consortium for Translational Cancer Research (DKTK) is desired.

In the field of teaching, comprehensive experience evaluated as outstanding and involvement are expected, as well as active design of lectures and other teaching formats, particularly in view of innovative curricula in the degree programs taught at the Tübingen Faculty of Medicine. The position has a teaching load of nine hours per week.

Required qualifications include a PhD or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure. This includes evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching and therefore strongly encourages women candidates to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

The German-language advertisement is the sole legally binding advertisement of this position.
Please submit your entire application using the web-based application platform https://berufungsportal.medizin.uni-tuebingen.de. The deadline for applications is 03 June 2021.

Enquiries may be directed to the Dean.
