The Tübingen Faculty of Medicine is part of the University of Excellence Tübingen. It provides medical services at the highest level and covers the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the Department for Internal Medicine I as a

**Professor (W2) of Clinical Infectiology and Translational Microbiome Research**

available immediately. The Professor will have an employment contract for six years under § 50 (2)(5) of the Baden-Württemberg state law covering higher education and specifically the promotion of highly gifted junior researchers.

Clinical foci of the professorship are the prevention and treatment of infectious diseases as well as the implementation of infection control measures, for example in the field of antibiotic stewardship.

The successful candidate is expected to have an international reputation in the field of clinical and functional microbiome research, particularly in the areas of antibiotic resistance and the spread of pathogens and associated malignant diseases. This should be documented with competitive, innovative research, publications in high-ranking journals as well as extensive third-party funding. Moreover, he/ she is expected to represent the subject of clinical infectiology in research, teaching and patient care.

Further requirements are a willingness and commitment to contribute to the Faculty of Medicine’s core research areas – infectious diseases and tumors – as well as active participation in current and planned research networks of the University of Tübingen, in particular the DZIF (German Center for Infection Research, Tübingen site), the Cluster of Excellence CMFI (Controlling Microbes to Fight Infection), the Cluster of Excellence iFIT (Individualization of Tumor Therapies by Molecular Imaging and Functional Identification of Therapeutic Targets), and the M3 Research Institute (Malignoma, Metabolome, Microbiome).

Commitment and active involvement in the teaching formats of the degree programs taught at the Faculty of Medicine are expected. The position has a teaching load of nine hours per week (during lecture periods).

Required qualifications include a board certification in internal medicine, a MD or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure. This includes evidence of teaching aptitude.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching and therefore strongly encourages women candidates to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.
The German-language advertisement is the sole legally binding advertisement of this position.

Please submit your entire application using the web-based application platform https://berufungsportal.medizin.uni-tuebingen.de. The deadline for applications is 29 July 2021.

Enquiries may be directed to the Dean.

Dean of the Faculty of Medicine
University of Tübingen
Professor Dr. rer. nat. Bernd Pichler
