The University Medical Center Tübingen is part of the University of Excellence Tübingen. It provides medical services at the highest level and covers the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the Institute of Physiology as a

**Full Professor (W3) of Physiology**

available immediately.

The professorship is associated with the position of the Head of Department Vegetative and Clinical Physiology.

The successful candidate is expected to represent the field of physiology in both research and teaching and is expected to work closely and intensively with the Head of Department Neurophysiology, particularly in teaching activities.

Candidates for the position should possess scientific excellence in the field of expertise and have many years of experience in organization and implementation of excellent preclinical teaching.

Active contribution to areas that represent the main scientific foci of the faculty (oncology/immunology, infectious medicine, vascular medicine/type II diabetes) is required as well as participation in new scientific concepts in the field of personalized medicine and systems biomedicine. Furthermore, high commitment is expected in ongoing joint projects and the initiation of new research networks (Excellence Clusters, Collaborative Research Centers, Research Units, Research Training Groups) as well as in the German Centers for Health Research and in the programs within the framework of the Excellence Initiative.

In the field of teaching we expect extensive and outstandingly evaluated teaching experience and commitment especially with regard to innovative curricula in the study programs Human Medicine, Dentistry, Molecular Medicine and other courses of the Faculty of Medicine at the University of Tübingen, as well as the active and personal co-creation of lectures and other teaching formats. Moreover, the successful candidate is expected to promote innovative didactical concepts and to particularly participate in the SPIRIT teaching concept of the Faculty of Medicine. The linkage of the preclinical and clinical studies should be intensified and aligned with the main research areas of the Faculty of Medicine on the basis of the Profile-Plus Program. The position has a teaching load of nine hours per week (during lecture periods).

Required qualifications include a PhD or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure. This includes evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the share of women in research and teaching and therefore strongly encourages women candidates to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.
Applications from equally qualified candidates with disabilities will be given preference.

The German-language advertisement is the sole legally binding advertisement of this position.

Please submit your entire application using the web-based application platform https://berufungsportal.medizin.uni-tuebingen.de. **The deadline for applications is 12 August 2021.**

Enquiries may be directed to the Dean.
