

The Tübingen Faculty of Medicine and University Hospital are part of the University of Excellence Tübingen. They provide medical services at the highest level and cover the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the Center for Neurology / Hertie-Institute for Clinical Brain Research as a

Professor (W2) of Translational Imaging of Cortical Microstructure

The position is available immediately. The Professor will have an employment contract for six years under § 50 (2)(5) of the Baden-Württemberg state law covering higher education and specifically the promotion of highly gifted junior researchers. The approval of an ERC Starting Grant is a prerequisite for a successful application.

The Professorship is expected to use and further develop highfield and ultra-highfield MRI-Imaging methodologies at existing facilities to characterize the role of the cortical microstructure in the evolution of neurologic, psychiatric and neurodegenerative diseases as well as during physiologic ageing. A research focus in the domain of sensory and motor systems is desirable. A substantial contribution to financing the professorship through transferable third-party funds is expected.

In the field of teaching, comprehensive experience evaluated as outstanding and involvement are expected, as well as active design of lectures and other teaching formats, particularly in view of innovative curricula in the degree programs taught at the Tübingen Faculty of Medicine. The position has a teaching load of two hours per week.

Required qualifications include a PhD or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure. This includes evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching and therefore strongly encourages women to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

The German-language advertisement is the sole legally binding advertisement of this position. General information on professorships, hiring processes, and the German academic system can be found here: <https://uni-tuebingen.de/en/213700>

Please submit your entire application using the web-based application platform <https://berufungsportal.medizin.uni-tuebingen.de>. The deadline for applications is **16 February 2022**.

Enquiries may be directed to the Dean.

Dean of the Faculty of Medicine
University of Tübingen

Professor Dr. rer. nat. Bernd Pichler
Geissweg 5/1
72076 Tübingen, GERMANY
