

The University Medical Center Tübingen is part of the University of Excellence Tübingen. It provides medical services at the highest level and covers the entire spectrum of modern medicine, re-research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for the position of a

W2-Professor for Medical Education with a focus on Medical Didactics

at the Institute for Medical Education (to be established), available immediately.

The fixed-term professorship lasts for six years under § 50 (2) (5) of the Baden-Württemberg state law covering higher education and specifically the promotion of highly gifted junior researchers.

The Tübingen Faculty of Medicine offers degrees in Medicine and Dentistry as well as BA and MA degree programs in the fields of Biomedicine and Health Care Sciences. The successful candidate will establish and head the planned Institute for Medical Education (Edu@Med) at the Faculty of Medicine. We are looking for a person advancing the field of medical didactics in its full scale of teaching and research and representing it on an international level.

The task requires a person with a proven track record in research and teaching, with experience in the various fields of medical training research, particularly with regard to evidence-based curriculum development, the development and management of a simulation training program (including simulated patient program) and experience with the implementation and evaluation of digital teaching programs.

A willingness to work closely with all study programs and to participate in the committees on teaching and research-based teaching is required. Special involvement in the implementation of NKLM and NKLZ, as well as interprofessional teaching formats are also expected.

Required qualifications include a PhD or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure, as well as proven didactic qualifications (e.g. MME) and teaching aptitude, which must be reflected by corresponding teaching evaluations. This advertisement is aimed at physicians with proven excellent, internationally visible publications in the field of teaching research, who have successfully obtained third-party funding, and who have leadership and management experience. The successful candidate may additionally take on duties in patient care.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching and therefore strongly encourages women candidates to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

The German-language advertisement is the sole legally binding advertisement of this position.

Please submit your entire application using the web-based application platform <https://berufungsportal.medizin.uni-tuebingen.de>. The deadline for applications is **December 12th, 2019**.

Enquiries may be directed to the Dean.
